Summary

B.Tech Computer Science student specializing in SAP ABAP. Passionate about practical software, thoughtful UI, and systems that solve real business problems. Skilled in modern web interfaces, responsive frontend architecture, and enterprise-aware workflows using SAP concepts, ABAP foundations, and data tools. Focused on building products that feel fast, reliable, and easy to maintain.

Education

Parul University, Vadodara, Gujarat
B.Tech CSE (SAP) – CGPA: 7.12

2024 – 2028

Skills

Languages: HTML, CSS, JavaScript, Java, Python, C, SQL
Frameworks & Libraries: React, SAP UI5, Fiori, Flask, Tailwind CSS, Bootstrap, Next.js, Express.js
Tools: Git, GitHub, Firebase, VS Code, IntelliJ IDEA, Eclipse, MongoDB
Soft Skills: Communication, Leadership, Problem Solving, Teamwork

Projects

FocusFlow | HTML, CSS, JavaScript

Preview

Developed a productivity-oriented web application to streamline daily task management. Designed a responsive and user-friendly interface using HTML, CSS, and JavaScript. Implemented dynamic task handling features such as adding, deleting, and tracking tasks in real-time. Structured the application workflow to improve usability and minimize user effort, focusing on efficient task organization and performance optimization.

Spark AI | AI, JavaScript

Preview

Developed an AI-based application focused on intelligent task handling and automation. Implemented core functionalities leveraging modern technologies to enhance productivity and user interaction. Designed a structured and scalable system with emphasis on performance and usability.

The Date Crew | Next.js, TypeScript, Tailwind CSS, Firebase

Preview

Built a full-stack web application that helps users discover, organize, and manage creative date experiences through an interactive and user-friendly platform. Developed responsive frontend interfaces using Next.js, TypeScript, and Tailwind CSS, ensuring seamless navigation and optimal performance across desktop and mobile devices. Integrated modern web technologies and scalable application architecture to support dynamic content, enhanced user engagement, and an intuitive planning experience.

Nexora | Next.js, Tailwind CSS, Express.js, MongoDB, Gemini API

Preview

Built a full-stack AI career preparation platform featuring AI mock interviews, ATS resume auditing, coding assessments, and job tracking. Developed scalable backend APIs and authentication systems using Express.js, MongoDB, and Google Gemini API integration. Designed responsive UI dashboards and personalized learning workflows using Next.js and Tailwind CSS for seamless user experience. Focused on performance optimization, clean architecture, and real-world career preparation solutions with scalable application design.

Medora | Next.js, TypeScript, Tailwind CSS, Firebase

Preview

Developed a modern healthcare platform focused on improving patient engagement and simplifying access to healthcare services through a clean and intuitive user experience. Designed responsive and accessible user interfaces using Next.js, TypeScript, and Tailwind CSS, ensuring seamless performance across devices. Implemented structured workflows, dynamic content management, and scalable frontend architecture to enhance usability and streamline healthcare-related interactions. Focused on performance optimization, user-centered design, and delivering a reliable digital healthcare experience.

Certifications

- SAP S/4HANA Essential Training
- SAP ERP Essential Training
- Statistics 101 (IBM)
- Python
- SQL Basic
- SQL Intermediate
