Professional Summary

B.Tech Computer Science (SAP) student with hands-on experience developing full-stack web applications, AI-powered applications, and responsive user interfaces. Skilled in JavaScript, React, Next.js, Express.js, MongoDB, Firebase, Tailwind CSS, TypeScript, REST APIs, and authentication workflows. Familiar with SAP ABAP foundations, SAP UI5, Fiori, Git, and modern software development practices.

Education

Parul University, Vadodara, Gujarat

2024 – 2028

Bachelor of Technology (Computer Science Engineering – SAP)

CGPA: 7.20

Projects

Nexora – AI Career Preparation Platform

[GitHub](#)

Next.js, Tailwind CSS, Express.js, MongoDB, Gemini API

- Engineered a full-stack AI platform integrating mock interviews, ATS resume parsing, coding challenges, and job tracking to enhance career readiness.
- Implemented scalable microservice architecture with REST APIs, authentication workflows, and optimized database queries for performance and reliability.
- Designed responsive dashboards with reusable UI components, improving accessibility, usability, and reducing frontend development time.

The Date Crew

[GitHub](#)

Next.js, TypeScript, Tailwind CSS, Firebase

- Developed a full-stack application enabling users to discover, organize, and manage creative date experiences with real-time data synchronization via Firebase.
- Built modular TypeScript-based components and responsive layouts, ensuring cross-device compatibility and improved user engagement.
- Integrated secure authentication and cloud-hosted workflows, streamlining navigation and enhancing platform scalability.

Spark AI

[GitHub](#)

JavaScript

- Created an AI-driven task automation tool leveraging JavaScript for intelligent workflow handling and productivity optimization.
- Designed structured application logic with modular functions, improving maintainability and reducing code complexity.
- Enhanced user interaction through intuitive UI flows and efficient state management, ensuring seamless task execution.

Bitezy

[GitHub](#)

Next.js, TypeScript, Tailwind CSS

- Built an AI-powered recipe recommendation system that generates personalized suggestions based on user preferences and available ingredients.
- Developed responsive interfaces with reusable components, improving scalability and frontend performance.
- Implemented clean architecture patterns and optimized state management, ensuring efficient recipe discovery workflows.

Technical Skills

Languages: JavaScript, Java, Python, C, SQL, HTML, CSS

Frontend: React, Next.js, TypeScript, Tailwind CSS, Bootstrap, SAP UI5, Fiori

Backend: Express.js, Flask

Databases: MongoDB, Firebase

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse

Concepts: Full-Stack Development, REST APIs, Authentication, Responsive Web Design, Frontend Architecture, AI Applications

Certifications

- [SAP S/4HANA Essential Training](#)
- [SAP ERP Essential Training](#)
- [Statistics 101 \(IBM\)](#)
- [Python \(IBM\)](#)
- SQL Basic
- SQL Intermediate
